GROWER EXPERIENCE WITH BANKER PLANTS FOR APHID CONTROL

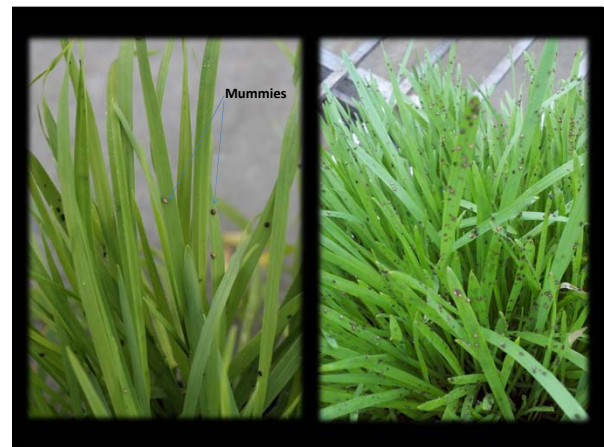

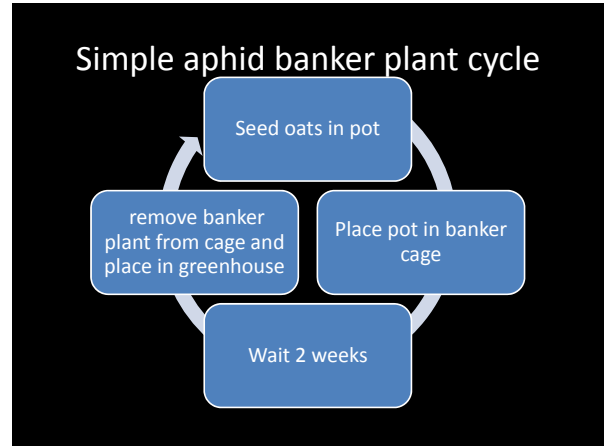

Rich Densel
Van Vugt Greenhouses
richdensel@gmail.com

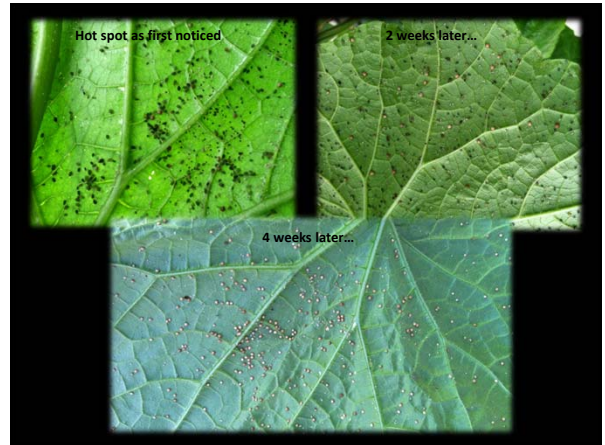

Dip all plugs/liners/URC's!

4 oz Rootshield
4oz Botanigard(powder)
50,000 Steinernema feltiae(Nemasys/Nemashield)
10 Gallons water

Aphid Hot Spots????

- Let aphidius do the job
- Remove plants
 - throw away OR
 - isolate & inoculate with more aphidius
- Release ladybug/lacewing larvae or aphidoletes
- Spot spray or drench
 - keep aphidius in mind
 - compatible + harmless!
